

SHOOTING AFFRAY
AMONG THE ARDAYS

Grim tragedy has once more stalked across the path of the Ardrey families located on the Lawrence township ridges, five miles south of Clearfield, and about one mile this side of Glen Richey.

Several weeks ago, it will be remembered, that on his return from Clearfield about 2 o'clock on a Sunday morning Ralph Ardrey found the almost lifeless body of his father lying in his bed with a bullet hole through his temple. The weapon from which the shot was fired—a 32 calibre rifle—was lying on the floor of the bed room. The coroner's inquest disclosed the fact that foul murder had been committed, but no clue to the murderer has thus far been discovered.

Shortly after dinner today District Attorney Arnold was notified that Ralph Ardrey, son of the deceased, and his cousin, Lawrence Ardrey, son of Alonzo A. Ardrey, brother of the murdered man, had fought a duel with rifles, and that Ralph Ardrey had been mortally wounded and Lawrence Ardrey, who had barricaded himself in his father's barn had also been shot.

The telephone line was in bad shape and it was impossible to get proper details and District Attorney Arnold, Deputy Sheriff Gilliland, Chief of Police Eadie and Officer Leavy secured a team and carriage and left at 2.30 o'clock for the scene of the shooting.

NO CONSTITUTIONAL
CHANGES BEFORE '21

By United Press.
Washington, March 11.—The president of the legislature to prepare for the holding of a constitutional convention it was announced today by Governor Sproul, who has just returned to the state capital after several days' illness at his home in Chester. The Governor announced that a bill providing for the appointment of a commission of 25 to study and report to the next legislature upon revision and amendments to the constitution was ready for introduction. The commission will report to the legislature of 1921 which will pass upon the question of whether a constitutional convention should be called.

Bills have also been prepared creating a state art commission composed of 5 persons which will pass upon all public memorials.

A bill designed to prevent fraud and deception in the selling of securities will also be introduced. Other measures of the administration's schedule provides for the return of the state's apportionment of the personal property tax, abolition of the office of Fire Marshal and transfer of its duties to the state police, and also for a geological survey.

PRESIDENT WILSON
NEARS DESTINATION

By CARL D. GROAT
ABOARD THE U. S. S. GEORGE WASHINGTON, Mar. 11. (Delayed).—President Wilson, expecting to expedite the peace work as much as possible after his arrival in Paris, today sent several messages to Col. House. These were understood to be in response to a query regarding details of the negotiations. The President's cold has disappeared and he and Mrs. Wilson spent some time walking about the deck today. The George Washington is due to arrive in Brest between 3 and 10 p. m. Thursday, provided the weather continues good. Citizens of Brest have wired the President extending their hospitality. The President accepted but suggested that all formalities be omitted.

RAINBOW DIVISION HOME SOON

Washington, March 11.—The fighting 42nd (Rainbow) Division will be back on American soil early in May the war department officials said today. It is the last of the divisions scheduled for sailing from France in April.

CAMPAIGN FOR
ARMENIA-SYRIAN
RELIEF UNDERWAY

The local or Clearfield county campaign for Armenian and Syrian relief was mapped out at a preliminary meeting held in the Arbitration room last evening. The meeting was called at the request of Mr. Ott, of Pittsburgh, who was sent into this territory by the state organization to endeavor to have Clearfield county provide her allotted share of this relief fund so necessary to prevent the obliteration or annihilation of the Christian people of Armenia and Syria, which peoples and countries have endured more terrible hardships possibly than almost any other area ravaged by the awful world war.

Rev. E. C. Reeves, of the Presbyterian church, presided and his opening remarks paved the way for Mr. Ott, who explained that Clearfield county's share of the \$30,000,000 to be raised for the purpose was \$20,000, of which the DuBois War Chest fund had already provided \$2500, leaving \$17,500 yet to be raised. A previous effort to organize here had failed because the initial work had been but half done and interest waned.

The speaker stated that this was the only purely charitable campaign of the war and should particularly appeal to the hearts of all Christian people. In these eastern countries 4,000,000 people are actually starving to death, among this huge total being 400,000 orphans and children. These children are orphans indeed; not in the sense we know orphans over here in this glorious land of the free where some hand, nation, state, county or community reaches out to nurture when the natural protector is gone, but real little starving waifs, without a tie to bind them to anyone, no place to lay their head and nothing to eat except the carrion by the wayside or roots and grasses from the field. These starving children run about the streets of the devastated towns like lost dogs until they lie in the ditch and actually starve to death. Every seven minutes a starved Armenian or Syrian baby gives up its little life by the starvation route. Just think of that, you American fathers and mothers—and ask yourself must Clearfield be returned as the only slacker county in Pennsylvania, in a cause where the very tenets of the Christian religion are tested at the core. Every time you contribute seventeen and one-half cents you save a life and provide sustenance for one day.

Rev. C. W. Baker, of the Lutheran church, spoke of the necessity for prompt action and illustrated his remarks by his experiences in Nebraska during the famine incident to a five-year drought period. He stated his church had recently taken a collection of \$200 for this fund but that the scope of the campaign should embrace all lines of endeavor within the church bound to do her share.

Rev. Hartman, of Trinity church, spoke along similar lines and urged the necessity of a strong man for county chairman. He stated that a day had been set for the taking of a collection in his church.

Walter Weich gave his views on the matter and endorsed what had already been said regarding the organization and while it would be impossible for him to serve as chairman on account of his connection with the War Savings Stamp drive he suggested that Mayor John M. Chase be named for this important post. Rev. Reeve then moved that Mr. Chase be named, the motion was seconded by Rev. Hartman and Mr. Chase was unanimously chosen.

Rev. Reeve then spoke of the urgent necessity for haste and stated that his congregation had given \$600 toward the fund on Sunday last.

The necessary committees were appointed and a county campaign arranged for at once and the proposition cleaned up before the first of April.

FULL CREW APPEAL
CONTINUED

HARRISBURG, March 10.—The appeals from the decision of the Public Service Commission in the full-crew complaints brought by the Brotherhood of Railroad Trainmen against the Pennsylvania and Philadelphia and Reading were continued until fall at the meeting of the Superior Court here today.

Abie Mirkin has purchased the handsome home of Stephen Pohe on South Second street and will take possession of same in the near future.

THE SAD FAREWELL

JUNIOR HIGH TEAM
AT DUBOIS

On Friday afternoon the Junior High school basketball team journeyed over the mountain to play the return game with DuBois Eighth grade of the Fourth ward.

The DuBois team was out to a man to meet our lads and proceeded to make them feel right at home. Teacher's Institute had given the DuBois boys the day off and most of the afternoon was spent by the two teams in sight seeing and telling each other just how the game was going to be played.

After the game was over both teams adjourned to the home of Master Carl Rothrock where a party was given in honor of the visiting boys. Oh what a time they did have. Mr. and Mrs. Rothrock as host and hostess soon had everybody busy and there was not an idle moment. The climax came in the "wee sma" hours, when delicious refreshments were served. There is nothing that gladdens a boy's eyes more than a nice big toothsome slice of sweet cake unless it is two slices and "by gum" there were two slices with plenty of other "fixins".

As our boys sank to slumber in the upper regions of the Y their dreams were not of baskets made but laughing, winsome eyes and bright and shining locks of many hues.

Oh about the game. A real snappy game from start to finish. Neither basket made the acquaintance of the ball in the first quarter and only received a passing nod or two during the remainder of the game. In the second quarter Johnson shot for the basket, the ball was going wild when Sayers very obligingly put his head in the right position (for Clearfield). The ball glanced and went over the top for the first score in the game.

The Clearfield boys succeeded in getting the ball over twice after that and caged three fouls. In the absence of Peters the regular foul shooter the boys took turns and about all they got was "returns." Jagers drew the booby prize as he made a perfect score of 0 out of five times up.

The DuBois lads failed to make any field goals, although the ball promaded around the ring several times. Their foul shooting was fine. Spencer and Milliron each caging a half of their attempts.

Final score Clearfield 9. DuBois 5. But then the DuBois lads were not

to blame for "old jinx" had marked that burg for his own. The fast High school team lost their first game of the season to Punxy and the Penna. Y girls easily took a game from the Y. M. C. A. girls. Some game, some game but—Oh, boy! That party. Yum! Yum!

The Junior High team will play the Phillipsburg Freshmen a return game at the High school gym on Friday evening at 8 o'clock.

STOCK MARKET STEADIER

NEW YORK, March 11.—Prices were generally steadier at the stock market opening today. United States Steel opened at 95½, off ¼; Mexican Petroleum 187½, up ¼; Baldwin 97½; Bethlehem B 70½, up ¼.

BUFFALO SITUATION IMPROVED

BUFFALO, N. Y., March 11.—Despite rumors of trouble among the unemployed in Buffalo there were no demonstrations or indications of disorder today. Mayor Duck believes the situation can be handled by local authorities. It was at first reported that state troops were to be rushed here, an outbreak being feared.

PEACE TREATY DRAFT
READY MARCH 20TH

By FRED S. FERGUSON
(United Press Staff Correspondent)
PARIS, March 11.—With the military terms adopted and rapid progress being made toward completion of the other provisions it was learned today that the preliminary peace treaty will be ready to be presented to the Germans by March 20. Germany's "greatest war machine in the world" will be reduced to a military status lower than that of her smallest neighbor. The conscription system will be knocked out by a 12 year enlistment requirement for the army, which it is understood will be reduced to 100,000 men. What army there is will be composed of professionals. The danger of Germany having four or five million trained men within the next ten years, which would have been possible through conscription, will be abolished. All guns, munitions, and equipment in excess of the amount necessary for Germany's needs, will be surrendered. It is also understood that the notorious general staff will be wiped out.

REV. COLLINS TO
LECTURE THURSDAY

Clearfield people who have not yet heard Rev. J. C. Collins' lecture "The House That Jack Built" should with out fail attend its delivery at the West Side Methodist Church Thursday night.

Mr. Collins draws vivid word pictures of houses that have been built the way they should be built; likening our characters to houses wherein our souls abide.

This lecture has been delivered both here and elsewhere and every audience that has heard it declare that his forceful eloquence has reached their inner souls.

The proceeds of the lecture are to be devoted to the Balm of Gilead Fund. By attending the lecture you will not only enjoy an excellent evening's entertainment but you'll be helping, too.

WELL KNOWN GRAMPAN
RESIDENT DIES

Squire William Freeman, who had been ill for some time, passed away at his home in Grampian last evening at 9 o'clock. The deceased, who was 75 years of age, was one of the best known residents of the Grampian section. He was a Civil war veteran and enjoyed the respect and esteem of a wide circle of friends. He enlisted in Co. I 58th Penna. Vol. Nov. 1st 1864 and was discharged Nov. 1865. He was a member of the G. A. R. post of Curwensville.

William Freeman was born near Warriors Mark, Centre county, February 26, 1844 and was united in marriage to Anabella Bloom, May 16, 1866. To this union were born five children, four of which survive him, namely: Mrs. J. A. Johnson, of Pike township; Mrs. Ralph Redifer, of Woodland and Ralph Freeman and Mrs. Charles Maurey, of Grampian. He is also survived by the following brothers and sisters: Newton and John Freeman, of Grampian; James Freeman, of Curwensville; Mrs. Scott McPadden, of Curwensville; Mrs. Emma Doughman and Mrs. Mary Bloom, of Grampian.

The honor list at Vassar College this year contains the name of Miss Hung-Chen Chen, a young woman student from Soochow, China.

CAPT. CLARK SAYS
THEY'RE ALL BUSY

St. Petersburg, Fla.
March 8, 1919

My Dear Skinny Connelly:
I am enclosing you my check for two dollars to pay for six months subscription in response to the sharp dun you sent me. To be frank with you I think you owe me money for I only receive The Progress about once a week. But I will let that go and call you on the star you put upon us a week ago, in what you called us—"the idle rich," sojourning in Florida. You have insulted a lot of your friends and you want to carry a gun when we get back home.

Col. Graham has been in his eye and wants revenge. I am enclosing the names of the bunch down here and if you can pick any rich man in that bunch I will swallow the greatest.

Here they are: At Graham and wife, his two daughters Florence and Maud; Boyd Kling and wife; Frank Reed and wife; Mrs. Albert Meyer; Ashley Shaw, wife and son; Albert Shaffer, wife and two daughters; Hugh Connolly; Messrs. Stephens and wife; Richard Stephens and wife; A. B. Lashberry and wife; Frank Moschberger, wife and place in law; Miss Smith; Rev. J. E. Garmon; A. A. Banta, wife and daughter; Miss Jeanie; and mother in law, Mrs. Mathews; H. D. McKeehan and wife; Paul Conklin and wife; E. C. Reed, and last, but not least, your humble servant and wife. So there you are. Now if you or your readers can pick any "idle rich" in that bunch we won't hurt you when we come back home.

Everybody is enjoying every minute of their visit and it keeps them busy to take in everything. Johnny Jones carnival blew in to town Monday. A twenty-car regular Barnum show. Every day we have the Specter Highland band in the park and airplane ascensions daily.

Monday night the board of Trade gave a big parade to advertise the entertainment they are giving at the open house and the big parade of the suffragettes. About 500 of the parade.

Constance, New England and Kansas each group carried its state banner. They were under the direction of Mrs. Charles Esterly and Miss Lillian Rensing, city and county chairman respectively of the suffrage department of the Pinellas county federation of women's clubs.

A novel feature of this section was a group of boys carrying a banner which read "Votes for Mothers." A mother wheeling her baby attracted much attention as did the few men in the section. Florida was represented by a group of prominent women bearing a huge banner "Democracy for All." Most of the automobiles in the parade were decorated in yellow, the color of the suffragists, and contained advocates of votes for women. It might be added that the women kept step as well as did the county guard and other military units.

You talk about the idle rich, why we are kept as busy as a boy fighting snakes keeping up with the procession. Yours truly,
T. E. CLARK

SOLDIERS' MEMORIAL

I have noted your frequent reference to a fitting memorial to our soldiers who gave up their lives during the Great War. This idea is a fitting one. It should be consummated in some permanent form. BUT, let it wait until we have done our duty by the living heroes. The dead are sleeping in a paradise where nothing we can do or say will affect their comfort or their feelings. The living, the returned, the nerve shattered, the wounded, the disappointed, the out-of-a-job soldier, discharged without funds, is in our midst. He must eat, he must sleep, he must wear clothing.

Most of our people do not know—have no way of knowing—the actual condition of our returned men. I do. They come to me in great numbers and my one regret is that I cannot instantly direct them to a place where they may earn their living. That is all they ask. None of them are looking for charity; every one of them would resent anything that looks like charity, but THEY DO WANT WORK.

Many of these men have complained that their former employers refuse them work when they apply for their old jobs back; and in some instance it is positively stated that Alien Enemies, Austrians and Hungarians, are continuing in profitable employment while our men stand around idle.

Few people will realize that the average soldier when discharged from the Army draws less than \$40.00 in his final settlement, out of which he must pay his carfare home. Few people likewise realize that many of these men are returning to their homes and are compelled to wear their uniforms if they wish to be decently dressed. Men who have been away from their homes for upwards of two years do not return to find an up-to-date wardrobe awaiting them; many of them have outgrown their clothes. Few, if any of them, have sufficient funds to pay the price of a suit of ready made clothes today.

It should be remembered, also, that these returned men have passed through soul-trying circumstances. It should be remembered also that their social circles have been disrupted, that they return to have innumerable changes in their own homes and families; that many of them are returning with their minds still filled with the horrors of the battlefields, large numbers of them are suffering from shell shock, are nervous, sometimes irritable, depressed in spirits—remembering comrades who died by their sides, comrades whom they had learned to love; many are suffering from wounds. These men need to have their minds taken off of themselves.

Can't we do something for the living while we discuss something fitting for the dead. First let us see that our soldiers have employment. Personally I will be glad to assist any employer in finding a returned soldier to whom he can give employment—it is preferable however for employers to give the men their old jobs where that is possible. Next, can we not do something for these men in a social way? Every family in this community knows intimately some returned soldier. Can one imagine a more agreeable thing than to gather a few of these world heroes around your table or to spend a few hours with you and your family and friends in the evening. There is little in most communities to replace the excitement of their lives in the last months and years.

Will you give this publicity? Can't we, through your valued paper, get a few people together who will lend their efforts to lightening the condition in which our men find themselves on their return.

JNO. M. BAIN.

ROY MILES BISHOP

Roy Miles Bishop, aged 23 years, and son of Mrs. A. L. Bishop, of 212 South Fourth street, died Sunday night last at 9:15 o'clock. The funeral will take place from his late home Wednesday morning at 9:30 o'clock. Services being conducted by Rev. Dr. E. C. Reeve, of the First

PEEL OFF CORNS BETWEEN TOES

The Great Corn Loosener of the Age Never Fails. Painless

A corn mashed, squeezed and crushed all day long on between two toes? You can try the desperate "street em" rough way and try to dig it out and fail. Or you can try the sensible, painless, easy way and use Get-it. It's easy for Get-it to

"Two Drops of Get-it"—That's All!

I have corns in hard-to-get-at places. It has been a wonderful painless formula. It has been used successfully and it settles on the corn and dries immediately. Instead of digging out the corn you peel it out painlessly. There is no sticky plaster that doesn't stay put no matter how hot or cold it is. You reach the corn easily with the little glass rod in the cork of the easy-to-use bottle. It cuts out the corn dead and it dries and shrinks. It's a real relief. I have used it and it has cured me. The instant money back comes over the only sure way costs but a trifle at any drug store. Mfg. by L. Lawrence & Co. Chicago, Ill.

POPULAR MORRISDALE RESIDENT DIES

Harry Howe one of the best known residents of Morris township, passed away at his home in Morrisdale this morning after a lingering illness, aged about 40 years. The deceased had been a sufferer from Bright's disease for some time.

Harry Howe was the son of Mr. and Mrs. John W. Howe, and was a fine young man. In his younger days he was an expert baseball player and filled the position of catcher on Morrisdale's fast amateur baseball team for a number of years. He was honorable and upright in his dealings with his fellow men, possessed a wide circle of warm friends throughout this entire region. With his brother Edward he has successfully conducted the Morrisdale hotel for a number of years.

Each New Day Brings a Better Maxwell

MOST anyone would think that after building 50,000 motor cars on one chassis plan that close on to perfection would be reached.

That is true in a large measure; but it happens to be only the point at which the Maxwell executives began.

They decided to keep on building Maxwells better and better as each new day went by.

The locomotive engineer drives his engine better every day. The banker who loans money does so with more and more judgment. The man at the forge—likewise.

This is the principle on which the Maxwell is built. It is not new in the business world. But it is sound.

And today, with 300,000 Maxwells built on this plan, anyone will readily understand—

Why a Maxwell runs on and on and never quits with age;

Why a Maxwell seldom turns in at a repair shop;

Why a Maxwell is so eagerly sought for in the second-hand market.

One of the last of more than 1000 improvements made since the first Maxwell was built is the appearance.

Let your eyes glance over this present day Maxwell and you'll think the price \$200 more than we ask for it.

NEWS OF OUR NEIGHBORS CURWENSVILLE

A social was held in the Bridgeport school house last Friday night. An enjoyable time was had by all.

The Progress representative was in formed by good authority Saturday that Robert Neepers has purchased the David Way farm out on the Chestnut Ridge. The purchase price was not given out. It is said that considerable fire clay underlies this place, but it remains to be tested out.

Thal Watt, known to all Curwensville people as "Swedie" who has been serving in Uncle Sam's navy for almost two years, returned to Curwensville last Thursday for a short stay with relatives. He served on a submarine destroyer operating in the English channel and Bay of Biscay. He received injuries which laid him up in a base hospital in France for some time and when he landed in New York was taken to a hospital in Brooklyn where he spent some time. He has not received his discharge from the service yet.

Mr. and Mrs. Irvin Gourley, who reside on Ridge avenue, were made glad on Sunday morning by the arrival of a young daughter.

Philip Reed, son of Mr. and Mrs. D. V. Reed, of Ridge avenue, returned to the home of his parents after an almost two years served over the seas. He saw considerable hard service over there, and has not much to say about it either.

Harry Bilger an attache of the

Park hotel was taken suddenly ill on Sunday morning and for several hours his life was in serious question. At this writing he is considerably improved and out of danger.

The family of Paul Harty has been confined to their home suffering from severe colds, akin to the old-fashioned grip.

The terrific high winds that prevailed on Sunday evening prevented many Curwensville people from attending church, as well as tearing away several paper roofs from dwelling houses.

Mr. and Mrs. Isaac Black were made happy last week when they learned of their son Clyde, whom they had not heard from since he crossed the sea more than a year ago. Letter after letter was written to him but never a word in response. Last week a young man named Curry, whose home is in the upper end of the county, and who recently arrived home from across seas, told Mr. Black that just a short while before he was discharged he talked with Clyde Black, who was then with his regiment doing guard duty across the Rhine, and that Black had told him that he had not received a letter from home since he landed on the other side. The Black family had almost given Clyde up as but are now rejoicing to learn that he is alive and in good health.

It was reported to the Progress man by a gentleman who is working in that vicinity that the influenza has hit the neighborhood of Morgan Run and Boardman and that there are now over 50 cases in one of those towns. Morgan Run. One death has already occurred. If behooves Curwensville people to keep a watchful eye and prevent the disease from again entering the community.

AGE MAY BE A BAR TO AMBITION OF SPEAKER CLARK

In view of the rumored intention of Champ Clark to try for the Democratic presidential nomination next year it is interesting to note that the Missouri statesman today enters upon his 70th year, an age greater than that of any President at the time of his inauguration. Mr. Clark has just retired from the Speakership of the United States House of Representatives after having filled the office through four Congresses. He is a Kentuckian, was educated at Bethany College and at the Cincinnati Law School, and for a time was an educator. But the practice of law was to be his calling, as a preparation for politics, and, in the course of time, he settled at Bowling Green, Mo., which he still calls home. From 1897 to the present time he has been a member of Congress. In 1912 he was the closest rival to Mr. Wilson for the Democratic presidential nomination.

A Hot Spot Chalmers Knows Neither Altitude Nor Weather

ANYONE who has motored much knows how a change of altitude—even of 600 feet—affects the average car. And when the weather changes, even if you never leave your home town, what a terrible affair it is to get your motor "running right."

A Hot Spot Chalmers knows neither altitude nor weather. For the Hot Spot device is proof against both.

No matter what the day, no matter where you are on the map, the Hot Spot carburizes the gas into a "dry" vapor from which all the power is wrung with amazing ease.

It is throbless, frictionless power, and on a cold day the engine runs warm in an instant or on a hot day runs cold consistently.

For "pulverizing" gas nothing yet has equalled the Chalmers Hot Spot and for raving it into the cylinders (a trick that is highly important), nothing has ever been made to approach the Ram's-Horn.

Either one of these two magnificent devices are worth an hour of any man's time. Both of them provide you a mental feast on modern engineering that you'll long remember.

Come see them. They've made the Chalmers one of the few great cars of the world.

WAS CONSTIPATED AND A NERVOUS WRECK

Bed-fast four months. Now up and gaining in flesh.

"Four months ago I was bed fast. I was badly constipated, suffered constantly from chills and fever, and was taking cold, until my nervous system was completely wrecked. I suffered with neuralgia, pains around my eyes, nervous all through my chest and pains under my shoulder blades. All is all gone now. I am on my feet and doing my own cooking and am in flesh right along. Myka Emulsion has certainly worked wonders for me."—Mrs. Frank Rhoderick, R. R.

Myka Emulsion is the mother of a large family of diseases. The whole system is broken down and weakened. Salts and acids give only temporary relief and do not remove the trouble. Myka Emulsion is a pleasant, nutritious food and a corrective medicine. It stimulates the natural bowel action, drives away all need of pills and purges. It promotes appetite and quickens the digestive organs in shape to take the food. As a builder of flesh and strength, Myka Emulsion is strongly recommended to run-down nervous people and it has produced amazing results in many cases of tuberculosis of the lungs. Chronic stomach trouble and indigestion are promptly relieved—usually in one day. It works like magic on colds and coughs. Myka Emulsion is a solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. A truly wonderful medicine for weak, sickly children. The mother how severe your case, you are urged to try Myka Emulsion under this guarantee—Take six bottles home with you, use it according to directions, and if you do not feel better with a week, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Myka Emulsion Co., Terre Haute, Ind. Sold and guaranteed by Stewart's Drug Store.

LEONARDSON'S

A Review Of New York Fashions As Seen By Our Buyer On His Recent Trip To New York

The prevailing note in Spring apparel seems to be practicability, with many novel details to give a touch of newness. Indications point to a continuance of the straight and narrow silhouette with quiet, subdued shades leading in the color scheme.

As a style-leader the Box Suit continues to hold sway and is being prominently featured. Undoubtedly it is the most shown suit style; but other new ideas have been introduced that lend variety.

Smart Suits of the semi-sport type, showing novelty features, are big favorites. Vest effects in suits are uniformly popular, sometimes the vest being wide and much in evidence, and again it is a mere inset of contrasting color, breaking the one-tone effect of the suit proper. Pockets have been adapted to the American tailored suit, and appear on the majority of suit jackets made of wool fabrics. Nearly all skirts are narrow, long and plain, with occasional one shown with scant inset pleats on either side of the front width.

Coats are immensely interesting, but the cape or dolman type seems at present to be the favorite. There is a fascinating look about this Spring wrap and for dress-up purposes is varied in colors and generally made in two materials charmingly combined. The cape often takes the form of a short, circular affair that reminds one of grandmother's days. Loose, straight coats, sometimes belted, often hanging free, and made of heavy wool fabrics, are shown for motor wear.

Smart Frocks feature a distinctive note of simplicity, but there are also some novel methods of decoration. The long, slender silhouette is in vogue although many of the newest models show skillfully draped skirts. Long, uneven tunics are popular and the moyen age type of frock is in high favor. More "frills" are applied to taffeta frocks than any other of the Spring dresses. Sports satin is prominently featured and combined with knitted fabrics, and occasionally a striped sweater-blouse is seen.

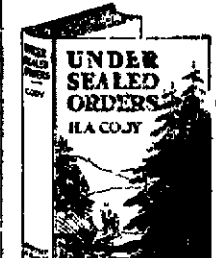

Separate Skirts are prominently featured as there is a good demand for them; garments of the sport type, but employing such exquisite material that they are really suitable for any occasion, having the first call. Simple, straight line skirts are the favorites. White skirts promise to be in great favor, and are shown in Georgette, various plain and fancy silk crepes, sport satin, flannel, and other materials. The accordion-pleated skirt, usually made up in plain or fancy taffeta, seems to receive much attention.

The outstanding feature about the Blouses for Spring seems to be the novel neck lines with or without a collar and sleeves of different lengths made open and wide or finished with an elaborate cuff. The low cut blouses undoubtedly show great popularity, but there is also quite a demand for models with a tall collar. There is an unusual demand for blouses of henna, cherry and flame-colored Georgette, with little trimming save frills of the material or braiding in self-tone soutache.

The Millinery reveals a multitude of new style features, and fabrics share popularity with straw hats. Particularly the First Empire period has been drawn upon extensively for what is known as Victory styles. Tricornees and bicornees promise especially well, and turbans of rich fabrics remind one of the Empress Josephine. New and charming styles in dress hats, restaurant hats and dinner hats are drawing a great deal of attention; many motifs developed in fine straws are everywhere to be seen.

SHOOTING AFFRAY
AMONG THE ARDAYS

Grim tragedy has once more stalked across the path of the Ardrey families located on the Lawrence township Ridges, five miles south of Clearfield, and about one mile this side of Glen Richey.

Several weeks ago, it will be remembered, that on his return from Clearfield about 2 o'clock on a Sunday morning Ralph Ardrey found the almost lifeless body of his father lying in his bed with a bullet hole through his temple. The weapon from which the shot was fired—a 32 calibre rifle—was lying on the floor of the bed room. The coroner's inquest disclosed the fact that foul murder had been committed, but no clue to the murderer has thus far been discovered.

Shortly after dinner today District Attorney Arnold was notified that Ralph Ardrey, son of the deceased, and his cousin, Lawrence Ardrey, son of Alonzo A. Ardrey, brother of the murdered man, had fought a duel with rifles, and that Ralph Ardrey had been mortally wounded and Lawrence Ardrey, who had barricaded himself in his father's barn had also been shot.

The telephone line was in bad shape and it was impossible to get proper details and District Attorney Arnold, Deputy Sheriff Gilliland, Chief of Police Eadie and Officer Leavy secured a team and carriage and left at 2.30 o'clock for the scene of the shooting.

NO CONSTITUTIONAL
CHANGES BEFORE '21

By United Press.
Washington, March 11.—The president of the legislature to prepare for the holding of a constitutional convention it was announced today by Governor Sproul, who has just returned to the state capital after several days' illness at his home in Chester. The Governor announced that a bill providing for the appointment of a commission of 25 to study and report to the next legislature upon revision and amendments to the constitution was ready for introduction.

The commission will report to the legislature of 1921 which will pass upon the question of whether a constitutional convention should be called.

Bills have also been prepared creating a state art commission composed of 5 persons which will pass upon all public memorials.

A bill designed to prevent fraud and deception in the selling of securities will also be introduced. Other measures of the administration's schedule provides for the return of the state's apportionment of the personal property tax, abolition of the office of Fire Marshal and transfer of its duties to the state police, and also for a geological survey.

PRESIDENT WILSON
NEARS DESTINATION

By CARL D. GROAT
ABOARD THE U. S. S. GEORGE WASHINGTON, Mar. 11. (Delayed).—President Wilson, expecting to expedite the peace work as much as possible after his arrival in Paris, today sent several messages to Col. House. These were understood to be in response to a query regarding details of the negotiations. The President's cold has disappeared and he and Mrs. Wilson spent some time walking about the deck today. The George Washington is due to arrive in Brest between 3 and 10 p. m. Thursday, provided the weather continues good. Citizens of Brest have wired the President extending their hospitality. The President accepted but suggested that all formalities be omitted.

RAINBOW DIVISION HOME SOON

Washington, March 11.—The fighting 42nd (Rainbow) Division will be back on American soil early in May the war department officials said today. It is the last of the divisions scheduled for sailing from France in April.

CAMPAIGN FOR
ARMENIA-SYRIAN
RELIEF UNDERWAY

The local or Clearfield county campaign for Armenian and Syrian relief was mapped out at a preliminary meeting held in the Arbitration room last evening. The meeting was called at the request of Mr. Ott, of Pittsburgh, who was sent into this territory by the state organization to endeavor to have Clearfield county provide her allotted share of this relief fund so necessary to prevent the obliteration or annihilation of the Christian people of Armenia and Syria, which peoples and countries have endured more terrible hardships possibly than almost any other area ravaged by the awful world war.

Rev. E. C. Reeves, of the Presbyterian church, presided and his opening remarks paved the way for Mr. Ott, who explained that Clearfield county's share of the \$30,000,000 to be raised for the purpose was \$20,000, of which the DuBois War Chest fund had already provided \$2500, leaving \$26,500 yet to be raised. A previous effort to organize here had failed because the initial work had been but half done, and interest waned.

The speaker stated that this was the only purely charitable campaign of the war and should particularly appeal to the hearts of all Christian people. In these eastern countries 4,000,000 people are actually starving to death, among this huge total being 400,000 orphans and children. These children are orphans indeed; not in the sense we know orphans over here in this glorious land of the free where some hand, nation, state, county or community reaches out to nurture when the natural protector is gone, but real little starving waifs, without a tie to bind them to anyone, no place to lay their head and nothing to eat except the carrion by the wayside or roots and grasses from the field. These starving children run about the streets of the devastated towns like lost dogs until they lie in the ditch and actually starve to death. Every seven minutes a starved Armenian or Syrian baby gives up its little life by the starvation route. Just think of that, you American fathers and mothers—and ask yourself must Clearfield be returned as the only slacker county in Pennsylvania, in a cause where the very tenets of the Christian religion are tested at the core. Every time you contribute seventeen and one-half cents you save a life and provide sustenance for one day.

Rev. C. W. Baker, of the Lutheran church, spoke of the necessity for prompt action and illustrated his remarks by his experiences in Nebraska during the famine incident to a five-year drought period. He stated his church had recently taken a collection of \$200 for this fund but that the scope of the campaign should embrace all lines of endeavor within the church bound to do her share.

Rev. Hartman, of Trinity church, spoke along similar lines and urged the necessity of a strong man for county chairman. He stated that a day had been set for the taking of a collection in his church.

Walter Weich gave his views on the matter and endorsed what had already been said regarding the organization and while it would be impossible for him to serve as chairman on account of his connection with the War Savings Stamp drive he suggested that Mayor John M. Chase be named for this important post. Rev. Reeve then moved that Mr. Chase be named, the motion was seconded by Rev. Hartman and Mr. Chase was unanimously chosen.

Rev. Reeve then spoke of the urgent necessity for haste and stated that his congregation had given \$600 toward the fund on Sunday last.

The necessary committees were appointed and a county campaign arranged for at once and the proposition cleaned up before the first of April.

THE SAD FAREWELL

JUNIOR HIGH TEAM
AT DUBOIS

On Friday afternoon the Junior High school basketball team journeyed over the mountain to play the return game with DuBois Eighth grade of the Fourth ward.

The DuBois team was out to a man to meet our lads and proceeded to make them feel right at home. Teacher's Institute had given the DuBois boys the day off and most of the afternoon was spent by the two teams in sight seeing and telling each other just how the game was going to be played.

After the game was over both teams adjourned to the home of Master Carl Rothrock where a party was given in honor of the visiting boys. Oh what a time they did have. Mr. and Mrs. Rothrock as host and hostess soon had everybody busy and there was not an idle moment. The climax came in the "wee sma" hours, when delicious refreshments were served. There is nothing that gladdens a boy's eyes more than a nice big toothsome slice of sweet cake unless it is two slices and "by gum" there were two slices with plenty of other "fixins".

As our boys sank to slumber in the upper regions of the Y their dreams were not of baskets made but laughing, winsome eyes and bright and shining locks of many hues.

Oh about the game. A real snappy game from start to finish. Neither basket made the acquaintance of the ball in the first quarter and only received a passing nod or two during the remainder of the game. In the second quarter Johnson shot for the basket, the ball was going wild when Sayers very obligingly put his head in the right position (for Clearfield). The ball glanced and went over the top for the first score in the game.

The Clearfield boys succeeded in getting the ball over twice after that and caged three fouls. In the absence of Peters the regular foul shooter the boys took turns and about all they got was "returns." Jagers drew the booby prize as he made a perfect score of 0 out of five times up.

The DuBois lads failed to make any field goals, although the ball promaded around the ring several times. Their foul shooting was fine. Spencer and Milliron each caging a half of their attempts.

Final score Clearfield 9. DuBois 5. But then the DuBois lads were not

to blame for "old jinx" had marked that burg for his own. The fast High school team lost their first game of the season to Punxy and the Penna. Y girls easily took a game from the Y. M. C. A. girls. Some game, some game but—Oh, boy! That party. Yum! Yum!

The Junior High team will play the Phillipsburg Freshmen a return game at the High school gym on Friday evening at 8 o'clock.

NEW YORK, March 11.—Prices were generally steadier at the stock market opening today. United States Steel opened at 95½, off ¼; Mexican Petroleum 187½, up ¼; Baldwin 97½; Bethlehem B 70½, up ¼.

BUFFALO SITUATION IMPROVED

BUFFALO, N. Y., March 11.—Despite rumors of trouble among the unemployed in Buffalo there were no demonstrations or indications of disorder today. Mayor Duck believes the situation can be handled by local authorities. It was at first reported that state troops were to be rushed here, an outbreak being feared.

PEACE TREATY DRAFT
READY MARCH 20TH

By FRED S. FERGUSON
(United Press Staff Correspondent)
PARIS, March 11.—With the military terms adopted and rapid progress being made toward completion of the other provisions it was learned today that the preliminary peace treaty will be ready to be presented to the Germans by March 20. Germany's "greatest war machine in the world" will be reduced to a military status lower than that of her smallest neighbor. The conscription system will be knocked out by a 12 year enlistment requirement for the army, which it is understood will be reduced to 100,000 men. What army there is will be composed of professionals. The danger of Germany having four or five million trained men within the next ten years, which would have been possible through conscription, will be abolished. All guns, munitions, and equipment in excess of the amount necessary for Germany's needs, will be surrendered. It is also understood that the notorious general staff will be wiped out.

REV. COLLINS TO
LECTURE THURSDAY

Clearfield people who have not yet heard Rev. J. C. Collins' lecture "The House That Jack Built" should with out fail attend its delivery at the West Side Methodist Church Thursday night.

Mr. Collins draws vivid word pictures of houses that have been built the way they should be built; likening our characters to houses wherein our souls abide.

This lecture has been delivered both here and elsewhere and every audience that has heard it declare that his forceful eloquence has reached their inner souls.

The proceeds of the lecture are to be devoted to the Balm of Gilead Fund. By attending the lecture you will not only enjoy an excellent evening's entertainment but you'll be helping, too.

WELL KNOWN GRAMPIAN
RESIDENT DIES

'Squire William Freeman, who had been ill for some time, passed away at his home in Grampian last evening at 9 o'clock. The deceased, who was 75 years of age, was one of the best known residents of the Grampian section. He was a Civil war veteran and enjoyed the respect and esteem of a wide circle of friends. He enlisted in Co. I 58th Penna. Vol. Nov. 1st 1864 and was discharged Nov. 1865. He was a member of the G. A. R. post of Curwensville.

William Freeman was born near Warriors Mark, Centre county, February 26, 1844 and was united in marriage to Anabella Bloom, May 16, 1866. To this union were born five children, four of which survive him, namely: Mrs. J. A. Johnson, of Pike township; Mrs. Ralph Redifer, of Woodland and Ralph Freeman and Mrs. Charles Maurey, of Grampian. He is also survived by the following brothers and sisters: Newton and John Freeman, of Grampian; James Freeman, of Curwensville; Mrs. Scott McPadden, of Curwensville; Mrs. Emma Doughman and Mrs. Mary Bloom, of Grampian.

The honor list at Vassar College this year contains the name of Miss Hung-Chen Chen, a young woman student from Soochow, China.

CAPT. CLARK SAYS
THEY'RE ALL BUSY

St. Petersburg, Fla.
March 8, 1919

My Dear Skinny Connelly:
I am enclosing you my check for two dollars to pay for six months subscription in response to the sharp dun you sent me. To be frank with you I think you owe me money for I only receive The Progress about once a week. But I will let that go and call you on the star you put upon us a week ago, in what you called us "the idle rich," sojourning in Florida. You have insulted a lot of your friends and you want to carry a gun when we get back home.

Col. Graham has been in his eye and wants revenge. I am enclosing the names of the bunch down here and if you can pick any rich man in that bunch I will swallow the greatest.

Here they are: At Graham and wife, his two daughters Florence and Maud; Boyd Kling and wife; Frank Reed and wife; Mrs. Albert Meyer; Ashley Shaw, wife and son; Albert Shaffer, wife and two daughters; Hugh Connolly; Messrs. Stephens and wife; Richard Stephens and wife; A.B. Lashberry and wife; Frank Moschberger, wife and place in law; Miss Smith; Rev. J. E. Garwood; A. Banta, wife and daughter; Miss Jeanie; and mother in law, Mrs. Mathews; H. D. McKeehan and wife; Paul Conklin and wife; E. C. Reed, and last, but not least, your humble servant and wife. So there you are. Now if you or your readers can pick any "idle rich" in that bunch we won't hurt you when we come back home.

Everybody is enjoying every minute of their visit and it keeps them busy to take in everything. Johnny Jones carnival blew in to town Monday. A twenty-car regular Barnum show. Every day we have the Specter Highland band in the park and airplane ascensions daily.

Monday night the board of Trade gave a big parade to advertise the entertainment they are giving at the open house and the big dancing at the Hippodrome. About 500 of the parade took place.

Constance, New England and Emma each group carried its state banner. They were under the direction of Mrs. Charles Esterly and Miss Lillian Rensing, city and county chairman respectively of the suffrage department of the Pinellas county federation of women's clubs.

A novel feature of this section was a group of boys carrying a banner which read "Votes for Mothers." A mother wheeling her baby attracted much attention as did the few men in the section. Florida was represented by a group of prominent women bearing a huge banner "Democracy for All." Most of the automobiles in the parade were decorated in yellow, the color of the suffragists, and contained advocates of votes for women. It might be added that the women kept step as well as did the county guard and other military units.

You talk about the idle rich, why we are kept as busy as a boy fighting snakes keeping up with the procession. Yours truly,
T. E. CLARK

SOLDIERS' MEMORIAL

I have noted your frequent reference to a fitting memorial to our soldiers who gave up their lives during the Great War. This idea is a fitting one. It should be consummated in some permanent form. BUT, let it wait until we have done our duty by the living heroes. The dead are sleeping in a paradise where nothing we can do or say will affect their comfort or their feelings. The living, the returned, the nerve shattered, the wounded, the disappointed, the out-of-a-job soldier, discharged without funds, is in our midst. He must eat, he must sleep, he must wear clothing.

Most of our people do not know—have no way of knowing—the actual condition of our returned men. I do. They come to me in great numbers and my one regret is that I cannot instantly direct them to a place where they may earn their living. That is all they ask. None of them are looking for charity; every one of them would resent anything that looks like charity, but THEY DO WANT WORK.

Many of these men have complained that their former employers refuse them work when they apply for their old jobs back; and in some instance it is positively stated that Alien Enemies, Austrians and Hungarians, are continuing in profitable employment while our men stand around idle.

Few people will realize that the average soldier when discharged from the Army draws less than \$40.00 in his final settlement, out of which he must pay his carfare home. Few people likewise realize that many of these men are returning to their homes and are compelled to wear their uniforms if they wish to be decently dressed. Men who have been away from their homes for upwards of two years do not return to find an up-to-date wardrobe awaiting them; many of them have outgrown their clothes. Few, if any of them, have sufficient funds to pay the price of a suit of ready made clothes today.

It should be remembered, also, that these returned men have passed through soul-trying circumstances. It should be remembered also that their social circles have been disrupted, that they return to have innumerable changes in their own homes and families; that many of them are returning with their minds still filled with the horrors of the battlefields, large numbers of them are suffering from shell shock, are nervous, sometimes irritable, depressed in spirits—remembering comrades who died by their sides, comrades whom they had learned to love; many are suffering from wounds. These men need to have their minds taken off of themselves.

Can't we do something for the living while we discuss something fitting for the dead. First let us see that our soldiers have employment. Personally I will be glad to assist any employer in finding a returned soldier to whom he can give employment—it is preferable however for employers to give the men their old jobs where that is possible. Next, can we not do something for these men in a social way? Every family in this community knows intimately some returned soldier. Can one imagine a more agreeable thing than to gather a few of these world heroes around your table or to spend a few hours with you and your family and friends in the evening. There is little in most communities to replace the excitement of their lives in the last months and years.

Will you give this publicity? Can't we, through your valued paper, get a few people together who will lend their efforts to lightening the condition in which our men find themselves on their return.

JNO. M. BAIN.

ROY MILES BISHOP

Roy Miles Bishop, aged 23 years, and son of Mrs. A. L. Bishop, of 212 South Fourth street, died Sunday night last at 9:15 o'clock. The funeral will take place from his late home Wednesday morning at 9:30 o'clock. Services being conducted by Rev. Dr. E. C. Reeve, of the First

PEEL OFF CORNS BETWEEN TOES

The Great Corn Loosener of the Age Never Fails. Painless

A corn mashed, squeezed and crushed all day long on between two toes? You can try the desperate, "sweat em rough way" and try to dig it out and fail. Or you can try the sensible, painless, easy way and use Get-it. It's easy for Get-it to

"Two Drops of Get-it"—That's All!"

I have corns in hard-to-get-at places. It has been a wonderful painless formula. It has been used successfully and it settles on the corn and dries immediately instead of digging out the corn you get it out painlessly. There is no sticky plaster that doesn't stay put no matter how hot or cold it is. You reach the corn easily with the little glass rod in the cork of the easy use bottle. It goes out through the tube, dries it out and shrinks it. It is a painless, safe, and sure method. It is a relief over the only sure way costs but a trifle at any drug store. Mfg. by L. POPULAR MORRISDALE RESIDENT DIES

Harry Howe one of the best known residents of Morris township, passed away at his home in Morrisdale this morning after a lingering illness aged about 40 years. The deceased had been a sufferer from Bright's disease for some time.

Harry Howe was the son of Mr. and Mrs. John W. Howe, and was a fine young man. In his younger days he was an expert baseball player and filled the position of catcher on Morrisdale's fast amateur baseball team for a number of years. He was honorable and upright in his dealings with his fellow men, possessed a wide circle of warm friends throughout this entire region. With his brother Edward he has successfully conducted the Morrisdale hotel for a number of years.

AMERICANS MAKING GOOD AT SIXTY-FIVE

Don't worry about old age. A sound man is good at any age. Keep your body in good condition and you can be as hale and hearty and able to "do your bit" as when you were a young fellow.

Affections of the kidneys and bladder are among the leading causes of early or helpless age. Keep them clean and the other organs in working condition, and you will have nothing to fear.

Drive the poisonous wastes from the system and avoid uric acid accumulations. Take GOLD MEDAL Haaslem Oil Capsules periodically and you will find that you are as good as the next fellow. Your spirits will be rejuvenated, your muscles strong and your mind keen enough for any task.

GOLD MEDAL Haaslem Oil Capsules will do the work. But be sure to get the original imported GOLD MEDAL Haaslem Oil Capsules. They are reliable and should be in your medicine cabinet and be refunded for sale by most druggists. In sealed packages three sizes.

Each New Day Brings a Better Maxwell

MOST anyone would think that after building 50,000 motor cars on one chassis plan that close on to perfection would be reached.

That is true in a large measure; but it happens to be only the point at which the Maxwell executives began.

They decided to keep on building Maxwells better and better as each new day went by.

The locomotive engineer drives his engine better every day. The banker who loans money does so with more and more judgment. The man at the forge—likewise.

This is the principle on which the Maxwell is built. It is not new in the business world. But it is sound.

And today, with 300,000 Maxwells built on this plan, anyone will readily understand—

Why a Maxwell runs on and on and never quits with age;

Why a Maxwell seldom turns in at a repair shop;

Why a Maxwell is so eagerly sought for in the second-hand market.

One of the last of more than 1000 improvements made since the first Maxwell was built is the appearance.

Let your eyes glance over this present day Maxwell and you'll think the price \$200 more than we ask for it.

NEWS OF OUR NEIGHBORS CURWENSVILLE

A social was held in the Bridgeport school house last Friday night. An enjoyable time was had by all.

The Progress representative was in formed by good authority Saturday that Robert Neepers has purchased the David Way farm out on the Chestnut Ridge. The purchase price was not given out. It is said that considerable fire clay underlies this place, but it remains to be tested out.

Thal Watt, known to all Curwensville people as "Swedie" who has been serving in Uncle Sam's navy for almost two years, returned to Curwensville last Thursday for a short stay with relatives. He served on a submarine destroyer operating in the English channel and Bay of Biscay. He received injuries which laid him up in a base hospital in France for some time and when he landed in New York was taken to a hospital in Brooklyn where he spent some time. He has not received his discharge from the service yet.

Mr. and Mrs. Irvin Gourley, who reside on Ridge avenue, were made glad on Sunday morning by the arrival of a young daughter.

Philip Reed, son of Mr. and Mrs. D. V. Reed, of Ridge avenue, returned to the home of his parents after an almost two years served over the seas. He saw considerable hard service over there, and has not much to say about it either.

Harry Bilger an attache of the

Park hotel was taken suddenly ill on Sunday morning and for several hours his life was in serious question. At this writing he is considerably improved and out of danger.

The family of Paul Harty has been confined to their home suffering from severe colds, akin to the old-fashioned grip.

The terrific high winds that prevailed on Sunday evening prevented many Curwensville people from attending church, as well as tearing away several paper roofs from dwelling houses.

Mr. and Mrs. Isaac Black were made happy last week when they learned of their son Clyde, whom they had not heard from since he crossed the sea more than a year ago. Letter after letter was written to him but never a word in response. Last week a young man named Curry, whose home is in the upper end of the county, and who recently arrived home from across seas, told Mr. Black that just a short while before he was discharged he talked with Clyde Black, who was then with his regiment doing guard duty across the Rhine, and that Black had told him that he had not received a letter from home since he landed on the other side. The Black family had almost given Clyde up as but are now rejoicing to learn that he is alive and in good health.

It was reported to the Progress man by a gentleman who is working in that vicinity that the influenza has hit the neighborhood of Morgan Run and Boardman and that there are now over 50 cases in one of those towns. Morgan Run. One death has already occurred. If behooves Curwensville people to keep a watchful eye and prevent the disease from again entering the community.

A CARD OF THANKS

We wish to thank the neighbors and friends for their kindness during the illness and death of our little son Thomas. Also for their floral tributes. Mr. and Mrs. Frank A. Shipley.

Don't trifle with a cold—it's dangerous. You can't afford to risk Influenza. Keep always at hand a box of

Standard cold remedy for 20 years—in tablet form—safe, sure, no opiates—breaks up a cold in 24 hours—relieves grip in 3 days. Money back if it fails. The genuine box has a Red top with Mr. Hill's picture. At All Drug Stores.

AGE MAY BE A BAR TO AMBITION OF SPEAKER CLARK

In view of the rumored intention of Champ Clark to try for the Democratic presidential nomination next year it is interesting to note that the Missouri statesman today enters upon his 70th year, an age greater than that of any President at the time of his inauguration. Mr. Clark has just retired from the Speakership of the United States House of Representatives after having filled the office through four Congresses. He is a Kentuckian, was educated at Bethany College and at the Cincinnati Law School, and for a time was an educator. But the practice of law was to be his calling, as a preparation for politics, and, in the course of time, he settled at Bowling Green, Mo., which he still calls home. From 1897 to the present time he has been a member of Congress. In 1912 he was the closest rival to Mr. Wilson for the Democratic presidential nomination.

Within the past six months more than 16,000 girls employed in Chicago industrial establishments have been instructed in social hygiene.

A Hot Spot Chalmers Knows Neither Altitude Nor Weather

ANYONE who has motored much knows how a change of altitude—even of 600 feet—affects the average car. And when the weather changes, even if you never leave your home town, what a terrible affair it is to get your motor "running right."

A Hot Spot Chalmers knows neither altitude nor weather. For the Hot Spot device is proof against both.

No matter what the day, no matter where you are on the map, the Hot Spot carburizes the gas into a "dry" vapor from which all the power is wrung with amazing ease.

It is throbless, frictionless power, and on a cold day the engine runs warm in an instant or on a hot day runs cold consistently.

For "pulverizing" gas nothing yet has equalled the Chalmers Hot Spot and for raving it into the cylinders (a trick that is highly important), nothing has ever been made to approach the Ram's Horn.

Either one of these two magnificent devices are worth an hour of any man's time. Both of them provide you a mental feast on modern engineering that you'll long remember.

Come see them. They've made the Chalmers one of the few great cars of the world.

WAS CONSTIPATED AND A NERVOUS WRECK

Bed-fast four months. Now up and gaining in flesh.

"Four months ago I was bed fast. I was badly constipated, suffered constantly from chills and fever, and was taking cold, until my nervous system was completely wrecked. I suffered with neuralgia, pains around my eyes, nervous all through my chest and pains under my shoulder blades. All is gone now. I am on my feet and doing my own cooking and am in flesh right along. Myka Emulsion has certainly worked wonders for me."—Mrs. Frank Rhoderick, R. R.

Myka Emulsion is the mother of a large family of diseases. The whole system is broken down and weakened. Salts and acids give only temporary relief and do not remove the trouble. Myka Emulsion is a pleasant, nutritious food and a corrective medicine. It acts on the natural bowel action, clearing away all need of pills and cathartics. It promotes appetite and quickens the digestive organs in shape to take the food. As a builder of flesh and strength, Myka Emulsion is strongly recommended to run-down nervous people and it has produced amazing results in many cases of tuberculosis of the lungs. Chronic stomach trouble and constipation are promptly relieved—usually in one day. It works like magic on the cold and solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. A truly wonderful medicine for weak, sickly children. The mother how severe your case, you may expect to try Myka Emulsion under this guarantee—Take six bottles home with you, use it according to directions, and if you do not feel better with a week, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Myka Emulsion Co., Terre Haute, Ind. Sold and guaranteed by Stewart's Drug Store.

MUSTEROLE—QUICK RELIEF! NO BLISTER!

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

Musterole is a clean, white ointment, made with the oil of mustard. It does all the good of the old-fashioned mustard plaster, but it better and does not blister. You do not have to bother with a plaster. You simply rub it on—and usually the pain is gone! Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives in such cases as throat, bronchitis, croup, whooping cough, asthma, neuralgia, congestion, rheumatism, lumbago, pains in the joints of the back or joints, sprains, sunburn, bruises, chilblains, frostbite, and sores of the chest (it often prevents pneumonia).

35c and 60c jars; hospital size \$2.50.

LEONARDSON'S

A Review Of New York Fashions As Seen By Our Buyer On His Recent Trip To New York

The prevailing note in Spring apparel seems to be practicability, with many novel details to give a touch of newness. Indications point to a continuance of the straight and narrow silhouette with quiet, subdued shades leading in the color scheme.

As a style-leader the Box Suit continues to hold sway and is being prominently featured. Undoubtedly it is the most shown suit style; but other new ideas have been introduced that lend variety.

Smart Suits of the semi-sport type, showing novelty features, are big favorites. Vest effects in suits are uniformly popular, sometimes the vest being wide and much in evidence, and again it is a mere inset of contrasting color, breaking the one-tone effect of the suit proper. Pockets have been adapted to the American tailored suit, and appear on the majority of suit jackets made of wool fabrics. Nearly all skirts are narrow, long and plain, with occasional one shown with scant inset pleats on either side of the front width.

Coats are immensely interesting, but the cape or dolman type seems at present to be the favorite. There is a fascinating look about this Spring wrap and for dress-up purposes is varied in colors and generally made in two materials charmingly combined. The cape often takes the form of a short, circular affair that reminds one of grandmother's days. Loose, straight coats, sometimes belted, often hanging free, and made of heavy wool fabrics, are shown for motor wear.

Smart Frocks feature a distinctive note of simplicity, but there are also some novel methods of decoration. The long, slender silhouette is in vogue although many of the newest models show skillfully draped skirts. Long, uneven tunics are popular and the moyen age type of frock is in high favor. More "frills" are applied to taffeta frocks than any other of the Spring dresses. Sports satin is prominently featured and combined with knitted fabrics, and occasionally a striped sweater-blouse is seen.

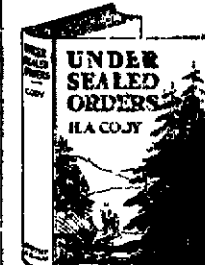

Separate Skirts are prominently featured as there is a good demand for them; garments of the sport type, but employing such exquisite material that they are really suitable for any occasion, having the first call. Simple, straight line skirts are the favorites. White skirts promise to be in great favor, and are shown in Georgette, various plain and fancy silk crepes, sport satin, flannel, and other materials. The accordion-pleated skirt, usually made up in plain or fancy taffeta, seems to receive much attention.

The outstanding feature about the Blouses for Spring seems to be the novel neck lines with or without a collar and sleeves of different lengths made open and wide or finished with an elaborate cuff. The low cut blouses undoubtedly show great popularity, but there is also quite a demand for blouses with a tall collar. There is an unusual demand for blouses of henna, cherry and flame-colored Georgette, with little trimming save frills of the material or braiding in self-tone soutache.

The Millinery reveals a multitude of new style features, and fabrics share popularity with straw hats. Particularly the First Empire period has been drawn upon extensively for what is known as Victory styles. Tricorne and bicorne promise especially well, and turbans of rich fabrics remind one of the Empress Josephine. New and charming styles in dress hats, restaurant hats and dinner hats are drawing a great deal of attention; many motifs developed in fine straws are everywhere to be seen.
